Computer Science, Loyola University Chicago

August 2021 — Present

Google Computer Science Summer Institute

June 2021 — August 2021

4-week program for rising college freshmen interested in computer science

🔧 Projects

Emridge

Emridge is a website designed to help currently undocumented immigrants become full U.S. citizens. The website offers a simplified way for immigrants of any nation, regardless of how far they are in their journey to citizenship, to identify which government forms they need to complete.
